

Lifetime Limited Warranty — Vinyl Windows & Patio Doors

Amerimax Building Products, Inc. (hereinafter referred to as "Amerimax") makes the following limited warranty on its vinyl window and patio door product (hereinafter referred to as the "Product") which is installed at the property described on the attached limited warranty card. This limited warranty shall apply to any Amerimax product installed on the property and is for the exclusive benefit of the Owner whose name appears on the reverse side of this form or the transferee as stated in paragraph 7. This limited warranty applies only to Product installed in the United States.

1. **Materials:** Amerimax warrants for a lifetime that the frame and sash vinyl lineals were manufactured according to Amerimax specifications and contain no defects and, subject to the limitations listed below, that the Product is warranted against blistering, rotting, pitting, corroding, flaking and peeling for a period continuing for as long as the original Owner, or transferee as stated in paragraph 7, continues to own the same property which the Product is installed (the "Structure").

a. Color retention is warranted for the life of the product to fall within ASTM D4726-02 standards. Chemicals can cause PVC discoloration. All fuels, solvents, bleaches or corrosive chemicals must be avoided.

2. **Parts:** Amerimax warrants for the lifetime all moving parts against defective materials and workmanship, including the balances, locks, keepers and screws.

3. **Insulating glass:** Amerimax warrants for a lifetime that the insulating glass portion of this Product will not "fail". A "failed" insulating glass unit is one that develops a significant obstruction of vision resulting from a moisture formation or dust collection between the interior glass surfaces caused by failure of the hermetic seal.

4. **Exclusions from Warranty:** This warranty does not cover defects or damages due to installation, or any consequences of faulty installation including failure, damage, or deterioration caused by faulty installation. This warranty does not cover defects or damage attributable to normal weathering or damaged caused by accident, fire, flood or other acts of God, vandalism, riot or civil disorder, misuse, abuse, harmful fumes, vapors or chemical pollutants in the atmosphere, mildew, building settlement or structure failure of walls or foundation, or any other causes or occurrences beyond Amerimax's control. This warranty does not cover the installation of Amerimax Product. It is the responsibility of the Product installer to comply with all local building codes and to install the Product according to industry standard installation principles. Check with your dealer regarding the terms of its installation warranty. This warranty does not cover breakage of glass or torn screens resulting from any cause whatsoever. This limited warranty shall be void if any alterations or modifications are made to the Product as installed.

a. Small marks, scratches, or spots which do not exceed the Amerimax standard or federal government specifications DD-04516 do not constitute a "failed" insulating glass unit. Condensation on glass which may occur as the natural result of humidity within the house or building area or as a result of interior/exterior temperature differential does not indicate a defect in the window and is not covered by this limited warranty.

b. The insulated glass warranty shall not cover the following products or situations: glass units that are not part of a complete Amerimax window or door product, glass units damaged in handling or installation: units installed in areas of excessive moisture or heat, or otherwise abused; glass units to which aftermarket films or coatings have been applied or if windows are painted, with the exception of Americoat system, varnished or coated with any form of alternate substance; any cost of removal, installation or refinishing. The manufacturer (Amerimax) shall have no liability relative to percentage of gas retention if capillary tubes are used.
